← Pictured here for the first time, reviewed exclusively in *Hi-Fi News* next month and scheduled for their first public UK showing at the Hi-Fi Show *Live* later in the year, here's the much-anticipated Sasha V from Wilson Audio. A

significant evolution on from its Sasha DAW [*HFN* Mar '19], the new Sasha V includes a thicker-walled X-material bass enclosure (with V material used on the top plate, pictured below), the same CSC tweeter with rear-wave chamber debuted in the Alexx V [*HFN* Jan '22] plus Wilson's 7in QuadraMag midrange unit. Wilson Audio will be exhibiting, courtesy of Absolute Sounds, in Ascot's huge On5 suite.

↑ The high-end 'firsts' are coming thick and fast courtesy of Renaissance Audio at the UK Hi-Fi Show *Live* this year. Join John Carroll and his team as they spin up VPI's awesome Titan Direct turntable with its double stack chassis, 'Magnetic Direct Drive' and air suspension system. Electronics will include MOON's new North Collection, headed by the flagship 891 network player/preamp and partnering 891 power amplifier, the latter rated at a full 300W/8ohm. These are sights and sounds not to be missed!
