THE UK hi-fi SHOW

The ultimate high-end hi-fi experience

Ascot Grandstand 2019

Hosted at the prestigious Ascot Grandstand, the UK's only dedicated high-end audio show boasts the 'who's who' of world-class hi-fi – here's this month's taster...

↑ Chord Electronics launched its flagship ULTIMA pre/power amplifiers [HFN Feb '19] at last year's Hi-Fi Show Live, and this year's event sees the UK's first public showing of the trickle-down ULTIMA 3 power amps. These 480W monoblocks replace the SPM 6000 MKII, and will be heard driving KEF Blades.

↓ The full gamut of precision Benchmark DACs and headphone amplifiers will feature in a top-flight system on the 5th floor while also serving up some glorious 'personal listening' with Focal, Fostex and Meze cans in our Panoramic Headphone Zone. Come hear the choice of many a professional user...

➔ Hailing from one of the world's finest boutique hi-fi manufacturers – TIDAL Audio of Germany – the Vimberg Mino and Tonda floorstanders employ ceramic Accuton drivers, with a 30mm diamond tweeter option! Hear them sparkle at the UK Hi-Fi Show Live.

↓ Warwick Acoustics will have its sound-proofed 'listening booth' installed as the centrepiece of our Panoramic Headphone Zone, on the top floor of the Ascot Grandstand. The spectacular views from this vantage point will be matched only by the opportunity to experience the very best in personal listening, courtesy of the Aperio flagship headphone/DAC/amplifier system. Under wraps, Warwick Acoustics has also teased us with a world exclusive to be unveiled at the UK Hi-Fi Show Live...

➔ Harman Kardon is bringing its full range of network-connected Citation speakers to the UK Hi-Fi Show Live, from the model ONE to the Towers pictured here. With Bluetooth, Chromecast built-in and Google Assistant all part of the repertoire, fun meets fine sound.

↑ When Simaudio announced the launch of its new MOON 860A v2 power amp, it also replaced the 860A, 870A and 880A with this one inherently 'complete' 225W/8ohm model. Hear it in a full Simaudio set-up with Dynaudio speakers at the UK Hi-Fi Show Live.

EVENTS Latest from the UK's only high-end hi-fi show

→ Falcon Acoustics is on something of a roll with its revitalised LS3/5a speakers [HFN Dec '18], but alongside these miniature marvels the new Reference GC6500R will also be playing at the UK Hi-Fi Show *Live*. Complete with ribbon tweeters and 'Graphene enhanced' bass units, these floorstanders look set to stun!

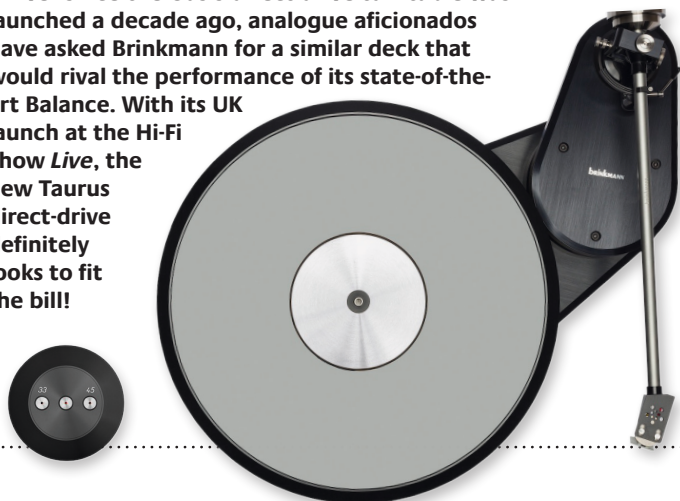

↑ Hot foot from the US, Aesthetix plans to demonstrate its Mimas integrated [HFN Mar '19] at the UK Hi-Fi Show *Live* alongside its flagship Janus Eclipse preamp and a pair of Atlas Eclipse power amps. This room will not be short of juice!

↑ Heavyweight hi-fi will be in abundance at the UK Hi-Fi Show *Live*, and the new Bellini/Donizetti amplifiers from Italy's Analogue Audio certainly fall into this exalted class. This new Anniversary Edition pre/power gets its UK debut in October...

↘ Ever since the Oasis direct-drive turntable was launched a decade ago, analogue aficionados have asked Brinkmann for a similar deck that would rival the performance of its state-of-the-art Balance. With its UK launch at the Hi-Fi Show *Live*, the new Taurus direct-drive definitely looks to fit the bill!

↓ Yes, your eyes do not deceive you – this is the apex of TechDAS's vinyl-playing solutions, the utterly extravagant Air Force Zero. The five-piece platter alone weighs over 100kg, capped by a 31mm-thick, 28kg disc of sintered tungsten! Every facet of this turntable's design seems extraordinary, and the proof will be in the listening as part of the Zero's 'World Tour' during the UK Hi-Fi Show *Live*...

↓ Cambridge-based Node Audio will be illustrating its 'Helical Transmission Line' technology, courtesy of the Hylixa speakers that debuted just last year. Get up close to their complex cabinet geometry, made using a laser-based form of 3D printing, and explore the extensive customisation options!
