The only standmount model in DALI's Epikore loudspeaker series, the Epikore 3 features the same EVO-K Hybrid Tweeter as the astonishing flagship '11 floorstander [*HFN* Feb '25], here partnered with a 175mm Clarity Cone bass/mid unit. Demonstrations at the UK Hi-Fi Show *Live* will see this premium speaker paired with the TDAI-2210 integrated amplifier from fellow Danish marque Lyngdorf, whose founder Peter Lyngdorf also established DALI in 1983. Rated at 2x105W/8ohm, the TDAI-2210 allies Lyngdorf's 'True Digital' amplification to RoomPerfect EQ, and supports input expansion through optional modules.

Fresh from their exclusive audition in *HFN* [Jun '24], the flagship 10 Series amplifier and SACD player/DAC from Marantz are ready to turn heads at the UK Hi-Fi Show *Live*, in addition to the Link 10n network player. Benefitting from the Model 10's potent Purifi-based Class D output will be Bowers & Wilkins' 803 D4 floorstanders [*HFN* May '23]. Not quite ready for the company's massive 801 D4s? These downsized siblings are the next best thing – come along and hear why!

Distributor Sound Design Distribution [SDD] will be serving up sweet analogue sonics in its room as the Ascot Grandstand, with Grimm Audio's new PW1 phono stage, *aka* the 'Phono Wizard' [below, left] joining forces with a turntable from UK artisan Onkk. For partnering loudspeakers, SDD has opted for the striking Giya G2s from Lawrence Dickie's Vivid Audio, which feature a tapered horn absorber cabinet – as seen on the bigger G1 [*HFN* Jan '18] – to get the best from their twin 175mm woofers.
